

The diagram illustrates a web application layout for a portfolio management tool, divided into a header and a main content area.

**Header Section:**

- Contains four main components: an empty rectangular box, a box labeled "Portfolio", a box labeled "Warchiver" (highlighted in yellow), and a group of three small boxes (two empty, one containing a square icon).
- A bracket on the right side of these components is labeled "Header".

**Main Content Area:**

- At the top, there is a horizontal bar divided into two sections: "Crypto" and "Stocks".
- Below this bar, the text "Name Price 24% M.Cap Vol. 24h" is written, suggesting a table structure for displaying financial data.

The diagram illustrates a hand-drawn user interface for a trading application, organized into a header and a main content area.

**Header:** The top section contains four elements: an empty rectangular box, a box labeled "Portfolio", a box labeled "Watchlist" (which is highlighted with a yellow background), and another empty rectangular box. A bracket on the right side of these elements is labeled "Header".

**Main Content Area:** The area below the header is divided into several sections:

- Navigation:** On the left, there is a back arrow icon followed by the text "Back".
- Form Input:** Below the navigation, there is a text input field labeled "[Name:"].
- Text Label:** Below the input field is the text "Info".
- Chart:** Below the text label is a section labeled "Chart". It contains a line graph with a vertical y-axis and a horizontal x-axis. The graph shows a line that starts at the origin, rises with some fluctuations to a peak, and then falls with some fluctuations towards the x-axis.
- Text Label:** To the right of the chart area, the text "Metrics:" is written.
